

# Comments from The Norwegian Scientific Committee for Food and Environment (VKM) on the stacked maize event DP4114 x MON810 x MIR604 x NK603 (Application EFSA-GMO-NL-2018-150)

## **Food and feed safety assessment**

VKM welcomes information on herbicide residue levels and their relevant metabolites in applications for herbicide tolerant GM-crops. Data on residue levels of glyphosate and glufosinate-ammonium, including relevant metabolites, in plant material from field studies would support the assessment of food, feed and environmental safety.
